

patti casey

TECHNICAL REQUIREMENTS

Patti requires a DI for her guitar, a Shure Beta 58 (or better) vocal mic on a gooseneck or boom stand, a straight-backed chair, and the capability to include a small condenser mic for a foot percussion board.

Accompanying musicians (numbers range from 1 to 4 additional musicians) require Shure Beta 58 (or better) vocal mics on goose or boom stands, and either DI or instrument mics for each vocal mic stand.

If sound is provided by the promoter, a sound technician must be present for sound check and must be present throughout the performance, unless otherwise negotiated.

If Patti provides sound, a fee will be negotiated for doing so. There must be electrical power at the site. If the performance is outdoors, promoter must provide adequate cover for the performers, a level, safe stage area, and vehicular access to the stage.
